

Teeth Whitening

Are you happy with the colour of your teeth? Did you know teeth

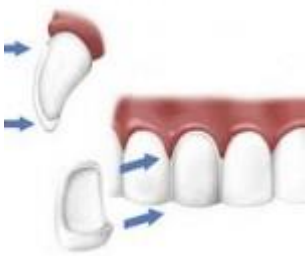

whitening is one of the safest and easiest ways to improve the way your smile looks. If brighter, more attractive teeth are what you are looking for, you should definitely

consider giving Precision Dental group a call to discuss your options. At Precision Dental we provide our patients with the take home bleaching system, which includes custom made trays for your teeth plus your whitening gel. It is an easy process and we will show you exactly how it can be done to get the best possible result.

Cosmetic Dentistry

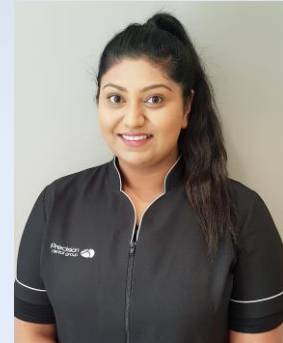

There is no asset more important in building your self-confidence than a booming, shiny smile. At Precision Dental Group we want to make you feel proud to show it off. We use the most advanced dental techniques

and technologies to bring you highly successful cosmetic dentistry treatments, with a range of procedures that covers the simplest to the most complex. Teeth Whitening and Porcelain Veneers are just two of the successful techniques to improve your smile. Porcelain Veneers are a popular choice for patients who want a natural-looking & perfectly white surface to their teeth. In

many cases damaged, cracked, or discoloured teeth can be covered with natural-looking porcelain veneers. Porcelain has the look & feel of a real tooth, & it has unique properties within its chemical structure that allow it to strongly bond with natural teeth

Welcome Sam

Sam has worked in the dental industry since 2011.

She has experienced assisting in all aspects of dentistry but her passion lies with cosmetic dentistry and the most rewarding part of her job is seeing patients achieve the smile of their dreams. Sam is originally from New Zealand and is currently enjoying exploring what the Gold Coast has on offer and if she's not assisting chair side she's out and about.
